**RE: REQUEST FOR EXTENSION  
Trunkline Gas Company, LP  
(TGC Backhaul Project)  
Historic Preservation Consultation /Clearances  
Douglas, Wayne, Massac Counties, Illinois  
JN: 16046**

Dear Ms. Leibowitz:

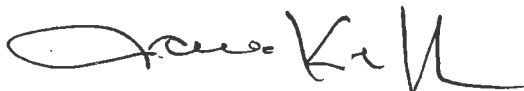

On behalf of Trunkline Gas Company, (Trunkline), Air & Water Compliance Group, LLC (AWCG) is requesting an extension to the previous reviewed and clearance for the TGC Backhaul project in Douglas, Wayne and Massac Counties, Illinois. The proposed project consists of modifications to the existing Bourbon Meter and the existing Tuscola, Johnsonville and Joppa Compressor stations. Modifications will include the installation of piping, valves, fittings, meters, regulators and other miscellaneous materials to allow for bi-directional flow through the meter station. All proposed impacts will be located within previously disturbed areas within station facilities and the connecting pipeline rights-of-way.

All work will be performed between late February 2017 and December 2017. The proposed sites are in currently open areas located in an existing natural gas meter and compressor stations and maintained pipeline right-of-way. See attached Table for specific locations and topographic map names. All construction equipment will be access sites using the existing public roads.

AWCG is requesting documented consultation in regard to compliance with Section 106, 36 CFR § 800, the implementing regulations for the National Historic Preservation Act (NHPA). If you conclude that the construction of the proposed project will have no effect on archaeological and historical properties, please sign the concurrence portion of this letter and return, indicating your approval of coordination and compliance with NHPA.

Should you require additional information, please contact me at your earliest convenience at (517) 592-2226.

Sincerely,  
For Air & Water Compliance Group, LLC
