FERC Docket Nos. CP15-93-000, CP15-94-000, and CP15-96-000

Dear Ms. Bose:

On February 2, 2017, the Federal Energy Regulatory Commission ("FERC" or "Commission") issued an Order Issuing Certificate ("Order") for the Rover Pipeline, Panhandle Backhaul, and Trunkline Backhaul Projects (collectively "Applicants").

Attached are the consultation letters submitted to the U.S. Fish and Wildlife Service ("USFWS") state field offices for clearance for each contractor yard as referenced in Table 5, submitted most recently on February 17, 2017. Please note that the contractor yards are referenced between Rover and the USFWS Columbus Field office by the "Consultation Code" issued by the Information for Planning and Conservation ("IPaC") program. These codes are listed on the first page of each IPaC letter, as well as the first page of the IPaC form attachment, titled "Official Species List", where the Consultation Code and the name of the corresponding yard are noted. The USFWS Columbus used the Consultation Codes in their responses, although they replaced the original "TA" portion of the code with "SLI" in their response. Wetlands and waterbodies identified within the contractor yards are included on the figures in the USFWS submittal letters. Rover will not impact any of the wetlands or waterbodies by use of the proposed yards.

This filing is being submitted electronically to the Commission's eFiling website pursuant to the Commission's Order No. 703, Filing via the Internet Guidelines issued on November 15, 2007 in FERC Docket No. RM07-16-000. Any questions or comments regarding this filing should be directed to the undersigned at (713) 989-2024.

Respectfully submitted,

/s/ Stephen T. Veatch
