FERC Docket Nos. CP15-93-000, CP15-94-000, and CP15-96-000

Dear Ms. Bose:

On February 2, 2017, the Federal Energy Regulatory Commission ("FERC" or "Commission") issued an Order Issuing Certificate ("Order")<sup>1</sup> for the Rover Pipeline, Panhandle Backhaul, and Trunkline Backhaul Projects (collectively "Applicants").

On February 27, 2017, Rover filed supplemental information for 16 proposed contractor yards in which landowner approval has been obtained as noted in Table 5-1 submitted to FERC on February 16, 2017, in its Request for Notice to Proceed with Construction ("Notice to Proceed"). In the February 27 filing, Rover stated that there were no trees located within the limits of disturbance at these 16 contractor yards. It has since been determined that trees may still be located on the proposed Spread D Main Contractor Yard located in Wood County, Ohio. Therefore, Rover is requesting that the Spread D Main Contractor Yard be removed from the request and that 15 of the 16 contractor yards be authorized for use at this time.

This filing is being submitted electronically to the Commission's eFiling website pursuant to the Commission's Order No. 703, Filing via the Internet Guidelines issued on November 15, 2007 in FERC Docket No. RM07-16-000. Any questions or comments regarding this filing should be directed to the undersigned at (713) 989-2024.

Respectfully submitted,

/s/ Stephen T. Veatch
