Re: OEP/DG2E/Gas 3
Rover Pipeline LLC
Docket No. CP15-93-000
Rover Pipeline Project
Supplement to the Environmental Report

Dear Ms. Bose:

On February 20, 2015, Rover Pipeline LLC ("Rover") submitted for filing with the Federal Energy Regulatory Commission ("FERC" or "Commission") pursuant to Section 7(c) of the Natural Act, and Parts 157 and 284 of the Commission's regulations requesting authorizations, among other things, to construct, own, and operate a new interstate natural gas pipeline system including approximately 711 miles of natural gas pipelines extending from the Marcellus and Utica shale supply areas in West Virginia, Pennsylvania, and Ohio to a point of interconnection with the Vector Pipeline, LP ("Vector") system in Livingston County, Michigan.

Attached herein for filing is a Supplement to the Environmental Report filed February 20, 2015 that reflects the results of additional biological and cultural surveys conducted in late 2014 and early 2015, and the incorporation of route variations into the proposed route to accommodate landowner requests, reduce or avoid impacts on cultural or biological resources, and resolve constructability concerns. The results of these modifications are included in the attached Resource Reports and the revised alignment sheets, tables, figures, appendices and attachments. As a result of incorporation of the route variations, the Rover Pipeline Project will consist of approximately 712.9 miles of Supply Laterals and Mainlines, 10 compressor stations, and associated meter stations and other aboveground facilities that will be located in parts of West Virginia, Pennsylvania, Ohio, and Michigan.

This FERC filing is being submitted under the following volumes:

- Volume II-A – contains Public Information
 - Supplement Summary
 - Appendices for Resource Reports 1 through 11
- Volume II-B – contain Public Information
 - Attachments for Resource Reports 1, 2, 6, and 7
- Volume III – contains **Critical Energy Infrastructure Information ("CEII")**
 - Resource Report 1, Attachment 1A – Facility Site Plans
 - Resource Report 1, Attachment 1B - Exhibits G

Rover Pipeline Project (cont.)

- Volume IV – contains **Privileged Information**
 - Resource Report 1, Attachment 1A - Landowner Mailing Lists
 - Resource Report 4, Attachments 4A - Cultural Correspondence
 - Resource Report 4, Attachments 4B, 4C, 4E, and 4G -
Archaeological/Architectural Survey Reports

Pursuant to Section 388.112 of the Commission's regulations, Rover requests that the information submitted in Volume III be accorded **CEII** treatment, and that the information submitted in Volume IV be accorded **Privileged and Confidential** treatment. This filing is being submitted electronically to the Commission's eFiling website pursuant to the Commission's Order No. 703, Filing via the Internet Guidelines issued on November 15, 2007 in FERC Docket No. RM07-16-000. Rover is providing paper and electronic copies to the Commission's Office of Energy Projects staff by their directions. Any questions or comments regarding this filing should be directed to the undersigned at (713) 989-2606.

Respectfully submitted,

/s/ Kelly Allen
