

**Rover Pipeline LLC
Rover Pipeline Project
Summary of 2015 Threatened, Endangered and Rare Status Species**

Species	Federal Status	Survey Report	Survey Findings/Conclusions
Indiana bat WV, PA, OH, MI	F-E	TRC, <i>Biological Evaluation</i> (Sept. 2015)	No Indiana bat captured – Implement minimization/conservation measures
Northern long-eared bat WV, PA, OH, MI	F-T	TRC, <i>Biological Evaluation</i> (Sept. 2015)	91 northern long-eared bats captured - Implement minimization/conservation measures
Mussels (various) WV	F-T,-E	TRC, <i>Biological Evaluation</i> (Sept. 2015) EnviroScience, <i>Freshwater Mussel Surveys and Possible Relocations throughout Northern West Virginia for the Proposed Rover Pipeline</i> (Oct. 2015)	No federal species found in four streams surveyed. Non-listed species relocated out of the construction work areas in accordance with protocol.
Mussels (various) OH	F-T,-E	TRC, <i>Biological Evaluation</i> (Sept. 2015) EnviroScience, <i>Freshwater Mussel Surveys and Possible Relocations throughout Ohio for the Proposed Rover Pipeline</i> (Oct. 2015)	No federal species found in 22 streams surveyed. Non-listed species relocated out of the construction work areas in accordance with protocol.
Mussels (various) MI	F-T,-E	TRC, <i>Biological Evaluation</i> (Sept. 2015) Environmental Consulting Technology, Inc., <i>Mussel Survey</i> (Sept. 2015)	No federal species found at one stream surveyed (Iron Creek).
Eastern massasauga OH	F-C	TRC, <i>Biological Evaluation</i> (Sept. 2015) Davis, Jeffrey G, <i>Eastern Massasauga Habitat Assessment along Rover Pipeline Project in Wayne County, Ohio</i> (Sept. 2015)	No suitable habitat found.
Eastern massasauga MI	F-C	TRC, <i>Biological Evaluation</i> (Sept. 2015) Davis, Jeffrey G, <i>Eastern Massasauga Habitat Assessment along Rover Pipeline Project in Washtenaw and Livingston Counties, Michigan</i> (Sept. 2015)	Suitable habitat found at four sites
Eastern massasauga MI	F-C	TRC, <i>Biological Evaluation</i> (Sept. 2015) Herpetological Resource and Management, LLC, <i>Rover Pipeline, Eastern Massasauga Rattlesnake Detection Assessment Report</i> (Oct. 2015)	No individuals found in suitable habitat at four sites. Implement minimization/conservation measures.
Eastern hellbender OH	F-C	TRC, <i>Biological Evaluation</i> (Sept. 2015) Davis, Jeffrey G, <i>Eastern Hellbender Habitat Assessment along Rover Pipeline Project in Ohio</i> (Sept. 2015)	No suitable habitat found.
Plants (various) PA	None	Hull & Associates, Inc., <i>Botanical Survey Report</i> (Aug. 2015)	None found.

Rover Pipeline Project
Summary of 2015 Threatened, Endangered and Rare Status Species**

Species	Federal Status	Survey Report	Survey Findings/Conclusions
Plants (snow trillium) PA	None	TRC, <i>Botanical Survey Report Snow Trillium, Washington County, PA</i> (Sept. 2015)	None found.
Blanding's turtle OH	None	Davis, Jeffrey G, <i>Eastern Blanding's Turtle Habitat Assessment along Rover Pipeline Project in Fulton and Defiance Counties, Ohio</i> (Sept. 2015)	Potential secondary habitat identified at two sites. Implement minimization measures during construction.
Spotted turtle OH	None	Davis, Jeffrey G, <i>Spotted Turtle Habitat Assessment</i> (Sept. 2015)	No habitat found.
Spadefoot OH	None	Davis, Jeffrey G, <i>Eastern Spadefoot Habitat Assessment along the Rover Pipeline ROW in Ohio</i> (Sept. 2015)	Presence-absence surveys recommended at five sites when reproductive activity is probable (April-June).

E – Endangered, T – Threatened, C – Candidate
