Re: OEP/DG2E/Gas Branch 4
Rover Pipeline LLC (Rover Pipeline Project)
Panhandle Eastern Pipe Line Company, LP (Panhandle Backhaul Project)
Trunkline Gas Company, LLC (Trunkline Backhaul Project)
FERC Docket Nos. CP15-93-000, CP15-94-000, and CP15-96-000
Fourth Supplement to the March 25, 2016 Informational Response to Draft
Environmental Impact Statement

Dear Ms. Bose:

On February 19, 2016, the Federal Energy Regulatory Commission (“Commission” or “FERC”) issued its Draft Environmental Impact Statement for the Rover Pipeline, Panhandle Backhaul and Trunkline Backhaul Projects under Docket Nos. CP15-93-000, CP15-94-000, and CP15-96-000, respectively. Rover Pipeline LLC (“Rover”), Panhandle Eastern Pipe Line Company, LP (“Panhandle”), Trunkline Gas Company, LLC (“Trunkline”) are submitting collectively herein their Fourth Supplement to the March 25, 2016 Informational Response to the Draft Environmental Impact Statement.

While conducting real estate title research as due diligence in the pipeline routing, Rover has recently discovered that its route will cross six flowage easements requiring permitting under Section 408¹. A decision on a Section 408 Permit request is a federal action, and therefore subject to the National Environmental Policy Act (“NEPA”) and other environmental compliance requirements. Rover has contacted the U.S. Army Corps of Engineers (“USACE”) Huntington District staff and is coordinating with them to obtain the Section 408 Permit. Attached hereto is Rover’s Section 408 Permit Application filed with the USACE. The analysis in the application qualifies and quantifies the environmental resources potentially affected by the proposed project within the flowage easements and Rover recommends this information be added to the Environmental Impact Statement as it is a federal action. In addition, this Section 408 Permit should be added to the list of permits required for the proposed project.

This filing is being submitted electronically to the Commission’s eFiling website pursuant to the Commission’s Order No. 703, Filing via the Internet Guidelines issued on November 15, 2007 in FERC Docket No. RM07-16-000. Rover is providing paper and electronic copies of this filing to the

¹ Section 14 of the Rivers and Harbors Act of 1899 and codified in 33 USC 408 (commonly referred to as “Section 408”).

Commission's Office of Energy Projects staff by their directions. Any questions or comments regarding this filing should be directed to the undersigned at (713) 989-2606.

Respectfully submitted,

/s/ Kelly Allen
