**Subject:** RE: Rover Pipeline Project Rare, Threatened and Endangered Species Survey Results

Brad,

Thank you for submitting the barn owl and spotted turtle survey reports. The DOW appreciates the commitment of Rover Pipeline LLC and TRC to ensure that impacts to these states listed species are avoided during development/construction of this project. After review of the reports, the DOW concurs that impacts to the barn owl and the spotted turtle are not likely. No further coordination related to these species is recommended at this time. If you have any questions, please feel free to contact me.

Thank you,  
Nathan

Mr. Reardon,

Attached are survey results for the barn owl (*Tyto alba*) and the spotted turtle (*Clemmys guttata*) conducted along the Rover Pipeline Project in 2016. Please let me know if you need further information.

Thanks,

Brad
