- 1 Upland and wetland forest.
- 2 Active hayfields, cultivated land, and specialty crops.
- 3 Utility rights-of-way, open fields, vacant land, herbaceous and scrub-shrub uplands, non-forested lands, emergent and scrub-shrub wetlands.
- 4 Existing developed residential areas. This may include large developments, low, medium, and high density residential neighborhoods, urban/suburban residential, multi-family residences, ethnic villages, residentially zoned areas that have been developed or short segments of the route at road crossings with homes near the route alignment;
- 5 Manufacturing or industrial plants, paved areas, landfills, mines, quarries, electric power or natural gas utility facilities, developed areas, roads, railroads and railroad yards, and commercial or retail facilities; and
- 6 Water crossings visible on aerial photography.
- 7 Miscellaneous special use areas (e.g., land associated with schools, parks, places of worship, cemeteries, sports facilities, camp grounds, golf courses, ball fields, etc.).
- 8 Permanent right-of-way, temporary construction right-of-way, and additional temporary workspace (ATWS).
- 9 Permanent right-of-way.
- 10 The Sherwood, Seneca, Clarington, Cadiz, Burgettstown, and PEPL meter stations will be located within compressor stations and, therefore, are not included.
- 11 The Mountaineer Woodview golf course on the Burgettstown Lateral will be crossed by HDD with no aboveground impacts; therefore no operational or construction acreage is included.

Notes:

Construction includes land used for construction, including ATWS for the pipelines as listed in Table 1A-3 in Appendix 1A of Resource Report.

The Burgettstown, Clarington, Majorsville, and Sherwood Laterals, and the Mainlines pipeline right-of-way construction and operation acreages include permanent easements associated with MLVs totaling 7.13 acres.

1 Site-specific residential plan is provided in Appendix 8B. Plans are not included for non-residential structures.  
2 Distance shown is from nearest centerline.  
3 Rover plans to compensate for structures.  
4. Structure is now further than 50 feet from workspace. Rover has included the residential plan to depict the revised configuration. These items will be removed from future tables and sets of drawings. .
